

References (database v3.0, 01.10.2015)

References for the T1 and T2 relaxation times listed in our material properties database. Values for tissues of which the properties are not available in the literature are substituted with values from other tissues. In these cases, the tissue used for the value is listed instead of a reference. The rationale for each individual substitution is provided in the Rationale for Tissue Substitutions.

| Tissue | 1.5T, T1 | 1.5T, T2 | 3.0T, T1 | 3.0T, T2 |
|----------------------|--|--|--|--|
